**“Our team is your team”** We have all the staffs with rich experience in their field such as Designer, Engineers, Purchase, Accounts, Administrations etc.

## ABOUT SAMADAHAN NETWORKS

**Established  
company  
in Bharuch  
in 2018**

Samadhan Networks was established in Bharuch, Gujarat as a mechanical contracting and engineering company in 2018. In a short period of time, we got the opportunity to work with multiple clients. Besides Gujarat, we have established ourselves in other states across India also.

**“ We believe in improvement ”** At Samadhan we believe in maintaining high quality standards. We achieve this by deploying experienced/trained staff according to the nature of project.

# VISION

- To establish 'SAMADHAN' as the most trusted contracting company by ensuring timely completion of projects with utmost safety & the best quality.
- We set new challenges for ourselves on a daily basis and strive to achieve them.

**Type of Work** : HVAC

# TRUSTED CLIENTS

**Plasser India**

**° CE** Comfort Engineers  
a digitised MEP company

## QHSE

**Quality, health, safety and the environment (QHSE) are a key part of the construction, commissioning and start-up phases of any project. They must be managed carefully in close collaboration with clients, contractors, suppliers and other partners.**

**At Samadhan Networks, we take QHSE at our construction sites very seriously and strive to meet the following objectives:**

- Zero incidents
- Safe, secure and healthy working conditions for everyone who works with and for us
- Safe, high-quality and environmentally responsible products and services
- Responsible use of natural resources
- Ensure that all materials and waste are carefully stored to prevent contamination of ground and surface water
- Minimize impacts to health and the environment from nuisances such as dust, odour, noise and vibration.

On-site QHSE has to be hardwired into a project right from day one and continuously monitored throughout the entire project.

Once construction starts, we establish clear lines of leadership and accountability – from site and construction managers through to individual supervisors.
